Post-Op UCL Throwing Program for Pitchers

If you want to throw hard and throw accurately you must throw hard and throw repeatedly. However, your shoulder and arm must have time to heal and adapt to the imposed demand. Progression too rapidly in the throwing program will DELAY your recovery and return to sport.

Always pay careful attention to your throwing motion / mechanics:

- Use a gathering step to initiate your throwing motion on all "long toss" throws,
- Use a 4 seam grip to allow better view of ball rotation,
- Stay on top of the ball,
- Throw over the top,
- Keep your elbow at or above shoulder level,
- Avoid trunk extension or shoulder dip (causes high arc on throws),
- Use your legs,
- Follow through with your arm and trunk. Emphasize your follow through in the early part of the throwing program to promote good mechanics.

Throw on line, but throw with sub-maximal effort and throw within your comfort level. If you cannot throw on line at a given distance, do not lob the ball in an attempt to move to the next level. Example: At 90 feet, the arc or the path of the ball should not carry the ball higher than approximately ten feet.

Throwing with a qualified coach or pitching instructor will improve your ability to progress in the throwing program. Videotape your throwing workout at least once a week to analyze your throwing motion / mechanics and your progress.

You must meet the following criteria to move to the next level:

1. No pain or stiffness while throwing,
2. No pain or stiffness after throwing (mild muscle soreness acceptable),
3. Effortless and fundamentally sound throwing motion / mechanics,
4. Good throwing accuracy throughout the current level,
5. Throws are consistently on line,
6. Good Strength throughout the current level with little fatigue.

Continue your upper trunk, scapula and rotator cuff rehabilitation program throughout the interval throwing program.

The interval throwing program is a guide that should be adapted or modified to meet your individual progress and problems. Anticipate throwing every other day for three days at each throwing level. However, if you are having any problems at a given level, remain at that level or return to the previous level until your problem is corrected or resolves. Do not hesitate to take an extra day or two off if you are having problems. If your problems do not resolve, see your athletic trainer or doctor. Rehab and shoulder exercise should now only be performed on the specified throwing days. Recovery is an integral portion of a successful throwing program. We will use the off days as recovery for the shoulder and arm. It is ok to use light tubing or a cuff program as a daily warm-up but it should not be used as an exercise on the off days. Please take advantage of the non-throwing days to train balance, proprioception, core and the lower body.

Post-Op UCL Throwing Program for Pitchers

Week 1 Throwing (45 ft. phase)

Day 1:

- Warm-up throws (under 45 ft)
- 25 Throws at 45 feet
- Warm-down throws (5-10 throw max)
- 1 Set only / Rest the next day

Day 2: No Throwing

Day 3:

- Warm-up throws (under 45 ft)
- 25 Throws at 45 feet
- Warm-down throws (5-10 throw max)
- 1 Set only / Rest the next day

Day 4: No Throwing

Day 5:

- Warm-up throws (under 45 ft)
- 25 Throws at 45 feet
- Warm-down throws (5-10 throw max)
- 1 Set only / Rest the next 2 days

Day 6 & Day 7: No Throwing

Week 2 Throwing (45 ft. phase)

Day 1:

- Warm-up throws (under 45 ft)
- 2 sets of 25 Throws at 45 feet (rest 5 minutes between sets)
- Warm-down throws (5-10 throw max)
- Rest the next day

Day 2: No Throwing

Day 3:

- Warm-up throws (under 45 ft)
- 2 sets of 25 Throws at 45 feet (rest 5 minutes between sets)
- Warm-down throws (5-10 throw max)
- Rest the next day

Day 4: No Throwing

Week 2 Throwing (cont'd)

Day 5:

- Warm-up throws (under 45 ft)
- 2 sets of 25 Throws at 45 feet (rest 5 minutes between sets)
- Warm-down throws (5-10 throw max)
- Rest the next 2 days

Day 6 & Day 7: No Throwing

Week 3 Throwing (45 ft. phase)

Day 1:

- Warm-up throws (under 45 ft)
- 3 sets of 25 throws at 45 feet (rest 5 minutes between sets)
- Warm-down throws (5-10 throw max)
- Rest the next day

Day 2: No Throwing

Day 3:

- Warm-up throws (under 45 ft)
- 3 sets of 25 throws at 45 feet (rest 5 minutes between sets)
- Warm-down throws (5-10 throw max)
- Rest the next day

Day 4: No Throwing

Day 5:

- Warm-up throws (under 45 ft)
- 3 sets of 25 throws at 45 feet (rest 5 minutes between sets)
- Warm-down throws (5-10 throw max)
- Rest the next 2 days

Day 6 & Day 7: No Throwing

Week 4 Throwing (60 ft. phase)

Day 1:

- Warm-up throws (under 60 ft)
- 1 set of 25 throws at 60 feet
- Warm-down throws (5-10 throw max)
- 1 set only / Rest the next day

Week 14 Throwing (120 ft. phase)

Day 1:

- Warm-up throws (under 120 ft)
- 1 set of 25 throws at 120 feet (rest 5 minutes)
- End session with Half Mound Catcher down on the plate (10-15 pitches)

Day 2:

- 5 min throwing program (60 ft max) * NO EXERCISE *

Day 3:

- Warm-up throws (under 120 ft)
- 1 set of 25 throws at 120 feet (rest 5 minutes)
- End session with Half Mound Catcher down on the plate (10-15 pitches)

Day 4:

- 5 min throwing program (60 ft max) * NO EXERCISE *

Day 5:

- Warm-up throws (under 120 ft)
- 1 set of 25 throws at 120 feet (rest 5 minutes)
- End session with Half Mound Catcher down on the plate (10-15 pitches)

Day 6:

- 5 min throwing program (60 ft max)

Day 7: No Throwing

Week 15 Throwing (120 ft. phase) Hat Drills:

The Hat Drill Program is designed to improve your ability to throw flat or slightly down with better arm strength and throwing accuracy. Place a hat at 105 feet from your position. Your throwing partner is positioned behind the hat to catch the ball on one bounce. Your goal is to throw with effort, imagining that you are throwing through the chest of another throwing partner standing thirty feet in front of the hat. Attempt to hit the hat.

Day 1:

- Warm-up throws (under 120 ft)
- 1 set of 25 throws at 120 feet (rest 5 minutes)
- 1 Set of 25 throws @ a hat
- End session with Half Mound Catcher down on the plate (10-15 pitches)

Day 2:

- 5 minute throwing program (60 ft mx) * NO EXERCISE *

Post-Op UCL Throwing Program for Pitchers

Week 17 Throwing (mound progression)

We will be throwing on a daily basis at this stage unless soreness or fatigue has occurred. The work days will still remain heavier on the days that you throw off the mound. The 10 min toss days are designed for recovery and to work on your mechanics. We will introduce throwing a change-up at this stage while you are playing catch, but not from the mound. Absolutely NO breaking pitches still.

Day 1:

- 10 Minute toss / Warm-up 120 ft
- Bullpen
- Full distance 25 pitches

Day 2: 10 min throwing program * NO EXERCISE *

Day 3:

- LIGHT WORK DAY 10 Minute toss / Warm-up
- Bullpen
- Full distance 15 Pitches (work on mechanics)
-

Day 4: 10 min throwing program * NO EXERCISE *

Day 5:

- 10 Minute toss / Warm-up 120 ft
- Bullpen
- Full distance 25 pitches

Day 6: 10 min throwing program * NO EXERCISE *

Day 7: Light Toss

Week 18 Throwing

Day 1:

- 10 Minute toss / Warm-up 120 ft
- Bullpen
- Full distance 35 pitches
-

Day 2: 10 min throwing program * NO EXERCISE *

Day 3:

- LIGHT WORK DAY 10 Minute toss / Warm-up
- Bullpen
- Full distance 15 Pitches (work on mechanics)

Post-Op UCL Throwing Program for Pitchers

Week 25 Throwing

This is where the programs will deviate. A starting pitcher will switch to his starting rotation plan. Pitch/Off/Bullpen/
Bullpen/Off/Pitch. As a starter you are trying to build endurance as well as your pitch counts and innings. It is ok for
both if it takes time before you return to an affiliate to pitch (we are not in a rush at this point). A reliever will begin
pitching on an every other day basis and progress towards pitching on back to back days.

"Off" = 10 min toss at this point"

Day 1:

- 10 Minute toss / Warm-up
- 2 Innings Live Game (35 pitch Max)
-

Day 2: 10 min throwing program * NO EXERCISE *

Day 3:

- Starter = Bullpen
- Reliever = 1 inning in a game

Day 4:

- Starter = Light side
- Reliever = Off

Day 5:

- Starter = Off
- Reliever = Off

Day 6:

- Starter = 3 innings Live Game
- Reliever = 2 Innings Live Game

Day 7: Repeat cycle per pitching coach at this time
